

Login is done with startup of application

If login fails re-enter user details and try login again

The screenshot shows a web application window titled "Simplifi Bankstatement Demo". On the left is a logo for "Simplifi Solutions" with the tagline "We Simplifi Solutions for You". The main area is divided into two sections. The top section, "Secutiy API Demo", contains a login form with fields for "Username:" (containing "user"), "Password:" (containing "****"), and "Token:" (containing a long alphanumeric string). Below these fields is a "Login" button. To the right of the button, the word "SUCCESS" is displayed. The bottom section, "Bank Login API Demo", features a row of five colored buttons: "Absa" (red), "Capitec" (dark blue), "FNB" (teal), "Nedbank" (green), and "Standard Bank" (blue). Each button has a small white circle to its left.

When Login is succesfull you can click on any of the banks and fill in login details:
